If you own a Registered Contract (including a locked-in Contract), the transfer of the Units attributed to your Contract from the closing Fund(s) to the replacement Fund(s) will not cause tax implications.

However, if you own a non-registered Contract, the transfer of the Units attributed to your Contract from the closing Fund(s) to the replacement Fund(s) will cause a taxable disposition, which might produce either a capital gain or a capital loss. This would be reflected on the T3 tax slips (and Relevés 16 for a Quebec resident) issued for the fiscal year of 2019.

Please refer to the section “Income Allocations for Tax Purposes” in your Contract and Information Folder, where you can find more information.

Clarification of Procedure Upon the Notification of Annuitant’s Death

In order to clarify the treatment of your Contract upon notification of the Annuitant’s death, minimize potential fluctuation of the market value and eliminate additional guarantee fee charges, effective October 7, 2019, changes will be made to the “Death Benefit” section of all available Guarantees. Accordingly, the following information will be added at the end of the applicable Death Benefit section of your Contract:

“When the Company receives written notification of the Annuitant’s death as per our Administrative Rules, the market value of the Units attributed to the Contract will be switched to the DFS GIF – Money Market Fund and any future additional guarantee fees, if applicable, will be waived. Upon receipt of all necessary documentation in accordance with our Administrative Rules, a payment will be made to the Beneficiary equal to the market value of the Units attributed to the DFS GIF – Money Market Fund or the calculated Death Benefit (as described above), whichever is higher. This payment will terminate the Contract.”

Please refer to your Contract and Information Folder for more information about the Death Benefit applicable to the selected Guarantee of your Contract.
